

ISIITA 2025

City of Taipei, Taiwan February 10 ~ 13, 2024

Important Dates

- **Conference:** February 10 ~ 13, 2025
- **Participation application :** November 1 ~ 30, 2024
- **Extended Abstract submission (1~2pages) :** December 20, 2024
- **Acceptance Notification :** December 30, 2024
- **Final paper submission (4~pages) :** January 20, 2025
- **Registration :** December 1, 2024 ~ January 20, 2025

Program Structure and Presentation Types

The ISIITA 2025 will consist of

- Hybrid Events
- keynote presentations (invited speakers)
- Oral paper presentations
- Poster presentations
- **Student Capstone Design Competition**

Paper Submissions

The papers presented in ISIITA2025 will be also included in the JIITA. Papers presented at the ISIITA2025 will be published under the supervision of ISIITA. Final Papers should be readied 2~4 pages with conference template. Also, it should not be published and not be reviewing any other conferences and journals. Selected high quality papers will be recommended for the publications in the competitive International Journals such as SCI(E), SCOPUS, and EI indexed journals. The ISIITA2025 supports the participants to organize the special sessions. Special session has no limit research area, and the session should be organized with four or more papers. Session organizers will be included automatically as a member of steering committee.

Aim & Scope

The International Symposium on Innovation in Information Technology Application (ISIITA) 2025, the world's premier networking forum of leading researchers in the highly active fields of information technology application, will be held in city of Taipei, Taiwan. The ISIITA2025 will include oral and poster sessions as well as tutorials given by experts in state-of-the-art topics. IT experts, researchers, and practitioners from each field are invited to share ideas and research technologies; moreover, encouraged to cooperate with each other to overcome the confronted technical problems. As a result, this conference will become a place of knowledge where a variety of effects can be created.

Host City : city of Taipei, Taiwan

The city of Taipei spans approximately 40km from north to south about 20km from east to west, encompassing a large total area. Green areas, forests, and parks make up a significant portion of the city, enhancing its beauty. The scenery is further enriched by the presence of picturesque fjords.

The topics include, but are not limited to

○ Information and Communications Systems

- RFID (radio frequency identification)
- USN (Ubiquitous Sensor Network)
- Telecommunication Systems
- Multimedia
- Digital Signal Processing
- Mobile/Wireless Communications

○ Management Information Systems

- Data Governance
- IT Project Management
- Electronic Commerce
- Financial Management
- Information Security
- Software Engineering
- Business Process Management
- Multimedia Business Applications

○ Industrial Electronic Systems

- Nano Technologies
- SoC/VLSI
- Robotics
- Embedded System
- Power Electronics
- Sensors and Control

○ Biomedical information Science and Technology

- u-Healthcare
- Biosensors
- Wireless/mobile healthcare system
- Computational Health Informatics
- Rehabilitation Engineering & Assistive Technology

○ Computer Application Systems

- Web Mining
- Visualization
- Artificial Intelligence
- Intelligent Interaction
- Computational Theory
- Web-Applications
- E-Learning
- Data Mining and Ontologies
- Computer Graphics and Vision

○ Nano Electronic materials and Device

- Nanomaterials and Nano characterization Area
- Quantum Electronic Material and Device Area
- Functional Molecular Materials and Devices Area
- Engineering Science for Advanced Device Area
- Quantum Optoelectronic Devices Area
- Organic Electronic Device Area
- Biosystems and Devices Area
